Lincoln University Annual Appeal 2021

The Lincoln University 150th Anniversary Heritage Project

In 2028, Lincoln University will celebrate its 150th anniversary. To mark the occasion, we are preparing a curated history of the university, to be ready in time for the celebrations.

The project will cover the stories of the campus site through to 2028 and include oral histories and archival footage.

Funds will go towards recording stories and transcribing and editing the material.

Acting Vice-Chancellor Professor Bruce McKenzie.

Message from the Acting Vice-Chancellor

Kia ora koutou

As part of our 2021 Annual Appeal, we are seeking your support to help us continue our mission of growing a brighter future for society.

At Lincoln we are consistently working to find innovative solutions to global issues.

Every day, I am inspired by the passion and zeal of our lecturers, faculty members, postgraduate and undergraduate students, as well as our alumni.

Supporting us means supporting our people to make the world a better place for all, as we work together to build a more sustainable and productive economy.

Ngā mihi nui
Professor Bruce McKenzie
Acting Vice-Chancellor

Andrew Bateup.

The Lincoln University Foundation Scholarship Fund

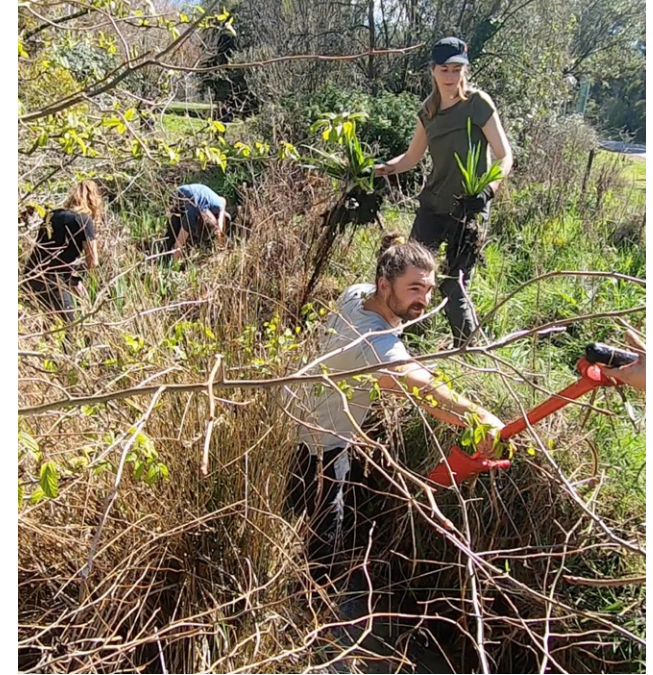

The financial commitment to attend university is one of the biggest barriers to study. A scholarship can help.

Andrew Bateup realised his passion for agriculture during his Diploma in Farm Management. Receiving a Lincoln University Alumni Scholarship benefited him immensely. "Agriculture is a major part of New Zealand's export market and with that comes so many opportunities. I get satisfaction from knowing what I am doing is helping to feed someone, somewhere."

The scholarship allowed Andrew to focus on his studies without having to worry so much about finances, especially during the lockdown period.

Andrew's enthusiasm for learning continues with a Bachelor of Commerce majoring in Agriculture.

Supporters of the Lincoln University Foundation Scholarship Fund can assist students like Andrew to make a difference in their chosen fields.

The Lincoln University Arboretum.

The Lincoln University Living Laboratory

The Lincoln University Living Laboratory brings together students, researchers and external partners to address real world challenges in practical environments.

Current projects include:

- **The Arboretum** – focusing on revitalisation, ecology and the environment.
- **Dairy Lab futures** – investigating sustainable farming systems, testing new approaches and measuring the outcomes.
- **Mt Hutt Forest and Bike Park** – exploring the challenges of land use, parks and outdoor recreation.

Contributions to this fund will be used to support special projects, visiting speakers and new equipment.
